

To whom it may concern at the FCC:

K-Love radio is a very important part of our community. It gives parents an opportunity to listen to adult music around their children. It is family friendly and is uplifting and edifying. The news is national and also encourages a sense of unity with the nation as a whole when we get nation-wide news and hear from other listeners outside of our region when they call in.

If this programming were to be displaced by an LPFM broadcaster, our community would suffer a significant loss. The feeling of being connected nationally with other listeners and with the staff of KLove would be gone. KLove's commitment to family friendly listening would be gone.

I believe that KLove is in the public's interest because of the way that they unite the country and reach out to people of any and/or no religious affiliation. Their commitment to sharing positive encouragement is vital to the morale of the general public.

Very Sincerely,
Darcy Evans
